# Welcome to Christian Health Care Center...

Christian Health Care Center (CHCC) has been fostering health, healing, and wellness in northern New Jersey for more than 100 years. Since its inception, CHCC has grown to offer the most complete continuum of **senior life, short-term rehab, and mental-health services** available in the area, and serves as a vital resource—not only for the people we serve on our campus, but also for the larger community.

## A commitment to caring...

Our commitment to caring begins with recognizing the intrinsic value of all individuals. Each person is unique and comes to us with his or her own perspectives, life experiences, and challenges. CHCC seeks not only to meet each person's physical needs, but also to nurture emotional and spiritual well-being.

Our goal is accomplished through exceptional medical care, and through numerous individualized and specialized programs designed to promote mental engagement, encourage interaction, and enhance all dimensions of wellness.

## THE VISTA

The Vista is an all-new community for active, independent adults age 62 and over. Currently under development, The Vista will be located on the CHCC campus. For more information, call toll-free 1-844-VistaNJ (847-8265) or visit the website at [TheVista.org](http://TheVista.org).

## Senior Life

At Christian Health Care Center, we are known for the exceptionally broad range of services we offer seniors—whether they lead active and independent lives, need a little assistance with daily activities, or are in need of 24-hour nursing care. In fact, CHCC offers the area's most complete continuum of services and lifestyle options on one campus, with a dedicated staff that includes full-time, on-staff specialists.

- **Independent living** at Evergreen Court and Hillcrest Residence
- **Assisted living** at The Longview Assisted Living Residence
- **Memory support** at The Courtyard (assisted living) and Heritage Manor Nursing Home (skilled-nursing care)
- **Adult day services** in Wayne and Wyckoff
- **Skilled-nursing care** at Heritage Manor Nursing Home
- **Valley Hospice** at Christian Health Care Center
- **Behavior management** at Southgate

## Short-term Rehab

When an illness, injury, or surgery has you sidelined, CHCC's David F. Bolger Post-acute Care Unit can help you return to wellness and get back to the life you enjoy. Post-acute care — better known as short-term rehab — is care that is received after a hospitalization, with the goal of regaining strength and transitioning back home as healthy as you were before — or better.

Our highly skilled, interdisciplinary team of professionals offers physical, occupational and speech therapies as well as education to help you work toward restoring the function that has been compromised by surgery, illness, injury, or disease.

## Mental Health

CHCC offers specialized mental-health programs to care for people of any age, with a wide range of diagnoses. We believe in the value and dignity of all people and seek to meet them where they are, with a team of highly trained, dedicated professionals who provide loving, compassionate treatment and care.

- **Christian Health Care Counseling Center** provides a wide range of outpatient programs for clients of all ages, including individual and family therapy sessions and groups.
- **Pathways** is a specialized program established to provide mental-health services for intellectually/developmentally disabled adults (18 and older) and their families, and is the first program of its kind in New Jersey.

## Mental Health *continued*

- **Ramapo Ridge Partial-hospitalization Program** is a voluntary, short-term, partial-hospitalization program that serves individuals 18 years and older who need comprehensive treatment, but who do not require hospitalization.
- **Ramapo Ridge Psychiatric Hospital** (RRPH) is a 58-bed, inpatient psychiatric hospital licensed by the State of New Jersey and accredited by The Joint Commission. RRPH consists of two divisions: a general adult psychiatric program and a geriatric psychiatric program. *Ramapo Ridge Psychiatric Hospital is licensed to accept both voluntary and involuntary patients.*
