

# Southgate Special Care Networking and In-Service

A professional evening of learning, connection,  
and collaboration

## What Is Southgate?

Southgate is a special care nursing facility (SCNF) serving adults with severe behavioral disturbances and other complex care needs related to dementia and other mental illnesses. Our multidisciplinary team provides individualized, person- and family-centered treatment that helps alleviate symptoms and improve quality of life. All team members receive specialized training in providing considerate, gentle care to all residents and are certified in de-escalation techniques to resolve conflict. It is one of only a few communities in New Jersey licensed to care for this population and the only one in Bergen County.

## Panel Topics

- Overview of the unique capabilities of Southgate
- Levels of care provided and specialized services
- Our interdisciplinary team approach
- Admission process and requirements

RSVP by May 12
